

# EDUCATION IN THE UK

*For more than a decade, the English education system is considered one of the best in the whole world.*

*Thanks to a good balance between the preservation of traditions and the introduction of the latest educational programs, schools in England and Great Britain manage not only to give students excellent academic knowledge but also to skillfully develop social and personal qualities in them.*

*Primary and secondary education in England (from 5 to 16 years old) is compulsory. Parents are required to either send their children to public or private schools or obtain permission for homeschooling and periodic testing of knowledge. Education in public schools is free but available only to citizens of the United Kingdom.*
